The calculation of the years B.C. is based upon the fact, that the termination of the 70 years' captivity coincided with the first year of the sole government of Cyrus, and fell in the year 536 B.C.; consequently the captivity commenced in the year 606 B.C., and, according to the chronological data of the books of Kings, Judah was carried into captivity 406 years after the building of Solomon's temple commenced, whilst the temple was built 480 years after the exodus from Egypt (1 Kings vi. 1).
